

14th Annual Immunology Symposium

Thursday, October 21, 2021

9:00 am — 4:30 pm

Blood Research Institute

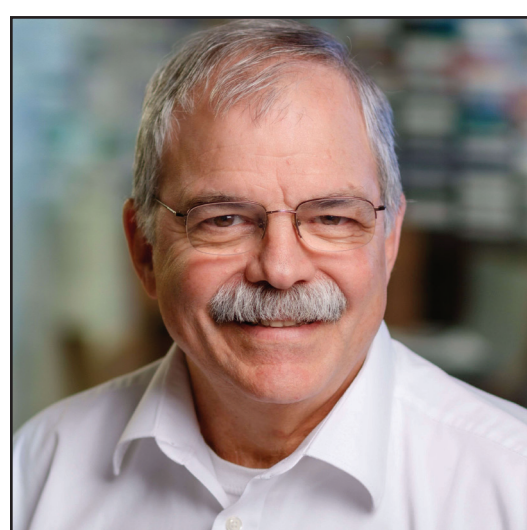

8733 W. Watertown Plank Road – Milwaukee, WI

Honoring
Dr. Matthew Riese's
Contributions to
Science and
Medicine

Mark your calendars: versiti.org/immunologysymposium

Featuring

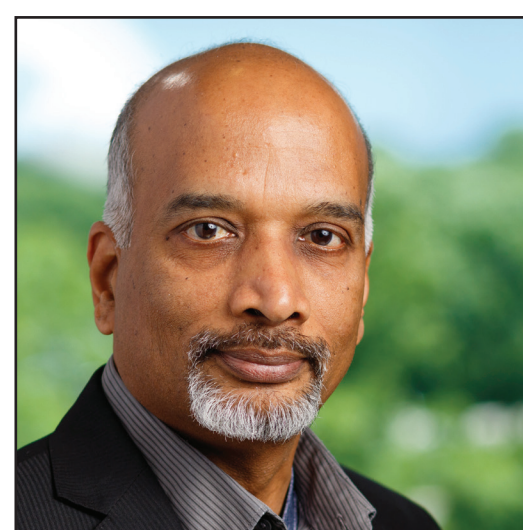

Joseph Barbieri, PhD
Medical College of Wisconsin
The Clostridial Neurotoxins:
Two Edged Swords

Bryon Johnson, PhD
Medical College of Wisconsin
Engineering T Cells for
Resistance to Immune
Checkpoints

Debra Newman, PhD
Blood Research Institute,
Versiti
T Cell Regulation of, and by,
PECAM-1

**Subramaniam
Malarkannan, PhD**
Blood Research Institute,
Versiti
Mett'ereology: Single-cell
Transcriptome Reveals Altered
TME in Pancreatic Cancer
Patients

Weiqing Jing, PhD
Blood Research Institute,
Versiti
T Cells Deficient in
Diacylglycerol Kinase α Are
Resistant to PD-1 Inhibition and
Help Create Persistent Host
Immunity to Leukemia

Erin Wesley, PhD
University of Minnesota
Evaluation of NK Cells in
Ovarian Cancer Patients with
Cytomegalovirus Reactivation
and Systemic Inflammation
